Much like planting seeds to grow vegetables, you can "plant" this sawdust spawn in outdoor beds and grow your own mushroom crops along with your plants. Ideal bed material depends on species.

Each bag comes with a **bonus Spore Boostr** to transform your spore syringes into liquid culture and supercharge your grow. **Just inject and grow!**

SPORE BOOSTR

Included with every ShroomTek, this little vial is packed with nutrients to give your spores a healthy start.

EASY TO USE

Everything your mushrooms need is right in the bag! Just inject spores or liquid culture and wait!

GROW RIGHT IN THE BAG

Great option for small spaces where a bed, bin or Martha tent may not be possible.
